

ROASTED SPAGHETTI SQUASH

Spaghetti squash is nutritious and can be a good substitute for pasta. By itself roasted spaghetti squash does not have much flavor so its important to use a sauce with it that has an abundance of flavor.

I like to make something similar to a Puttanesca sauce.

Rich with olives, capers, tomatoes and herbs.

Preheat the oven to 375.

Drizzle a little of the olive oil on the cut side of the squash.

Bake the squash in a roasting pan cut side down for about 45-55 minutes, until a knife inserts easily. Set aside.

In a heavy fry pan place the oil and cook the onion, garlic, anchovy paste and red pepper for 2-3 minutes while stirring. Pulse chop the tomatoes and their juice in a food processor or blender. Add to the frying pan and stir. Add the balance of ingredients and simmer for 10 minutes. Scrap the squash out of its skin and add it to the frying pan tomato mixture. Toss to mix.

Lightly grate Parmesan cheese over the top and serve.
